

LED Mini-Cylinder Spotlights

The Quick Jack LED Mini-Cylinder Spotlight approximates the light output and distribution of 20W MR11 halogen lamps, utilizing less than 1/3 of the energy and having a rated life of 50,000 hours. Available in 2700K, 3000K and 4100K color temperatures, the white-light TQJ114 Series is compatible with Juno Trac-Master or Trac-Lites trac when combined with the T537QJU LED-compatible driver, with Juno or Alfa low voltage trac when operated with LED-compatible 12VAC transformers, as well as with Alfa QJL LED-compatible MonoPoints. The TQJ114 can be placed anywhere along the trac, and the trac can be cut-to-length during installation, making the Quick Jack LED Mini-Cylinder Spotlight an economical and flexible accent lighting choice.
