Trac-Master®

AVIO® - Halogen MR16

The AVIO Halogen MR16 system integrates one to four halogen MR16 lamps into linear or quad-configured, trac-mounted luminaires. The concentric gimbal ring design provides aiming in all directions while the fixture plane remains aligned to the trac. Matching surface and recessed mount fixtures (shown in the Indy section) complete this versatile and visually compelling series.

Integral 12V Electronic Transformer

Shown with Airfoil Trim Accessory (Order Separately)
