AVIO™ TRAC MOUNTED SERIES

XT30101, XT30201, XT30301, XT30401, XT30404

PRODUCT DESCRIPTION

AVIO™ combines multi-lamp fixture functionality and aesthetics with a trac-based product that is easy to specify, cost effective to install and simple to reconfigure. AVIO's precision, die-cast frame with curved spanners creates a unique, consistent dropped visual plane of clustered lighting. The dual gimbal lamp mechanism allows full rotation and 45-degree aiming while the frame itself remains horizontal, creating a consistent appearance throughout the space. Specify the open frame for a technical aesthetic or select the optional curved airfoil trims for a more sophisticated sculptural look. Matching surface mount and recessed fixtures are available to enhance AVIO's unique capabilities to transform the appearance of an interior.

Lamp 50-75W PAR30 lamps.

Socket Medium base porcelain nickel plated copper screw shell.

Aiming 45° vertical aiming capability in all directions.

Construction Precision, one-piece die-cast aluminum grid frame offers premium, consistent aesthetics • Durable die-cast aluminum concentric gimbal rings provides optimum adjustability • Strong, ultra-thin stainless steel cable suspends the lampholder assembly from the trac interface • Die-cast aluminum finial provides fixed cable alignment and fixture stability.

Adapter Copper alloy contacts provide precise spring action - no arcing and will not take a set • True, positive electrical ground • On/off switch included • Patented embossed polarity arrows on bottom of adapter • Spring-loaded positive latch with embossed polarity arrows secures trac light to trac • "Pull-up" contact to up position for two-circuit application.

Labels UL listed, CSA certified.
