2.75" (70mm)

Shown actual size: Nova® dimmer in white (WH) (includes wallplate)

product family features

- visible heat sink (see page 46)
- slide adjusts light to suit any activity
- full family of controls plus matching fan controls, switches and wiring devices
- dimmer includes 1-gang wallplate
- use "no fins broken" wallplates for full wattage capacity in multi-gang applications
- does not mount with Nova T☆_® under common wallplate
- voltage compensation maintains stable light levels despite line voltage variations

Questions on installation or selection? Call Lutron_® 24 hours/7 days a week at 1.800.523.9466 or visit www.lutron.com

available models

source type

- ♀ incandescent/halogen lighting
- $\overline{\mathbb{V}}$ magnetic low-voltage lighting
- ₩ electronic low-voltage lighting
- ____ neon/cold cathode
- *Z*☞ fluorescent lighting
- LED lighting
- 🖗 fully variable fan controls

control locations

■ single pole (one location)
 ■ 0 3-way (two locations)

Other manufacturers allow for dimming below 20%. For approved magnetic ballast manufacturers and derating information contact the Lutron® Technical Support Center.

For best fluorescent dimming performance and reliability, Lutron_® strongly recommends using Hi-lume_®, Compact SE_™, Eco-10_®, EcoSystem_®, TVE_™, or Tu-Wire_® electronic dimming ballasts and appropriate controls.

* requires neutral wire connection

See page 33 for available colors. To order, add color suffix to model number. Example: NFTV- WH

preset dimmers

	(1200W)	
single pole/3-way	2000 VA	NLV-2003P-
	(1600W)	

Suggested maximum lighting load for magnetic low-voltage dimming is 450W for 600VA products, 800W for 1000VA products, 1200W for 1500VA, and 1600W for 2000VA to allow for transformer losses.

For 3-way and 4-way switching use N-3PS-, N-4PS- or other mechanical switches.

linear-slide switches

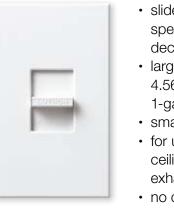

- slide up to on, down to off
- use with any 20 A load
- general purpose switching of all sources and motor loads
- for 347 V products insert color suffix before "CSA" in model number
- no derating if ganged

general purpose switches
