

• 120 volt primary, 12.5v secondary, 50/60hz standard

• Long life, high temperature (130°C) transformer core

• Single phase, open core and coil

• UL 1838 and UL 1598 certified

ORDERING INFORMATION

• Heavy duty, high temperature, fiberglass reinforced composite construction.

• Multi Volt 12.5v / 13.5v / 14.5v options available (see Transformer Options below)

• Isolation type magnetic transformer - no contact between 120v and 12v windings (compact electronic Halogen transformers available, see ordering information below)

• Magnetic circuit breaker for secondary overload/short circuit protection

• Completely potted for longer life, more efficiency and reduced noise

• NEMA 6 rated enclosure for below grade direct burial applications

DESCRIPTION

10w 700mA LED Driver

• 3 year warranty on enclosure and mechanical/electrical components

60w Electronic LED Transformer

75w Electronic Halogen** Transformer

150w Electronic Halogen** Transformer

• 1/2" NPS & 3/4" NPS bottom hubs for line voltage input, feed through & low voltage output

• 2 feet of 12/2 direct burial cable for low voltage connections (1 per circuit and/or voltage tap)

1200w magnetic transformer, (4 core)

¹IMPORTANT NOTE: Low voltage **electronic transformers** must be tested under load with a analog meter to achieve accurate results. Testing the transformer with a digital meter will produce an invalid reading of "no output". This characteristic is unique to electronic transformers that produce a square sine wave. We recommend use of an analog meter for testing with the transformer loaded to at least 20% of its rated output. Most electronic transformers returned as defective are actually good due to testing methods in the field that did not follow the above requirements.

12.5v / 13.5v / 14.5v Multi Voltage output on any single circuit transformer ADD -MV ADD -MV1 (1) 12.5v / 13.5v / 14.5v Multi Voltage output on 2, 3 or 4 circuit transformer ADD -MV2 (2) 12.5v / 13.5v / 14.5v Multi Voltage outputs on 2, 3 or 4 circuit transformer ADD -MV3 (3) 12.5v / 13.5v / 14.5v Multi Voltage outputs on 3 or 4 circuit transformer ADD -MV4 (4) 12.5v / 13.5v / 14.5v Multi Voltage outputs on 4 circuit transformer ADD -PC Photocell mounted on top ADD -RPC Remote photocell with 19' cord ADD -R 24V AC Relay control. (For use with existing irrigation controllers) **ADD -220V** 220v Input / 12.5v output in 300w increments (no multi voltage) ADD -240V 240v Input / 12.5v output in 300w increments (no multi voltage)

270v Input / 12.5v output in 300w increments (no multi voltage)
