

# Linear Lighting Lampholders Xenon Wedge Base & Rigid Loop

## Xenon Wedge Base

Xenon lampholders are ideally suited for linear lighting applications. They have a minimal profile and produce a white light that approximates the color of halogen, but have up to a 20,000-hour lamp life and do not require fixture lenses or special handling.

## Xenon Rigid Loop

The rigid loop lamp fixtures possess all of the advantages of the wedge base lamps, including a 20,000-hour lamp life, but offer a more perfectly symmetrical light distribution and slightly higher output that is more optimized for cove lighting applications.
