

Cubix®

The Cubix is a study of the visual relationship between two different geometric forms: the ring and the cube. In this design, the stem becomes a central element, forming a pleasing visual extension of the cube form. Concealed wiring and sleek trac adapter offer an ultra-clean appearance. Cubix for Trac-Master is designed for use with 50W PAR20, 75W PAR30, and 150W PAR38 line-voltage halogen lamps and 50W MR16 low-voltage halogen lamps. An optional, integral, bayonet-mount media cartridge is available for the PAR30 fixture that simultaneously accepts up to two light control accessories. A dual accessory media cartridge is standard on the MR16 fixture.

for detailed information.

Glacis®

The Glacis is inspired by the beauty of our natural world. The truncated conical element at the top cloaks the stem pivot when observed from conventional viewing angles. Concealed wiring completes the ultra-clean appearance. Glacis for Trac-Master low voltage is designed to use 50W MR16 halogen lamps. Media cartridge for two light control accessories is standard on the MR16 fixture.
