

Studio I

This classic nautical look is especially popular in traditional design settings. Its exquisite detailing and functional black baffle make it an important design element as well as an effective luminaire. The MR16 version is manufactured with an integral magnetic transformer which is especially useful in rough-duty applications.

Low Voltage Integral Magnetic Transformers

Integral Magnetic Transformers

The Studio I, Flat Back Cylinder and Cast 16 designs are among the original MR16 fixtures designed around magnetic transformers. They are typically chosen for special rough-duty applications where a robust magnetic transformer is desired.
