

### Light Control Accessories

The Juno complete range of light control accessories permit the designer to custom tailor effects.

#### Accessory Holders

Required for listed fixtures. Accepts one filter, lens, and louver except where noted.

#### UV Filters

These museum quality lenses filter out ultraviolet radiation below 400 nanometers to protect fade sensitive art and objects.

#### Dichroic Color Correction Filters

Color Correction Filters correct the light, either to warm it up to approximate incandescent, or cool it down to approximate daylight.

#### Color Filters

Color Filters change white light into colored light and are available in colored glass and more efficient/saturated dichroic filters.

#### Light Control Lenses

These alter the light distribution of a given lamp, enlarging or elongating it, softening the beam edge or removing striations.

#### Louvers

Hexcell and Cube Cell louvers reduce perceived fixture brightness.
