

AVIO® Halogen PAR30

The AVIO Halogen PAR30 system integrates one to four Halogen PAR30 lamps into linear or quad-configured, trac-mounted luminaires. The concentric gimbal ring design provides aiming in all directions while the fixture plane remains aligned to the trac. Optional airfoil trims can be specified to hide the lamp socket and wiring above the fixture. Matching surface and recessed mount fixtures (shown in the Indy section) complete this versatile and visually compelling series.
