Description

The Solo-Task LED luminaire offers ultimate flexibility and efficiency for task and accent lighting. The diminutive size allows it to be used easily and unobtrusively in applications where lighting of both superior efficacy and quality is desired. Approximates light levels of 20-watt halogen and xenon sources while using less than ¼ of the energy, and also generates significantly less heat. The ability to use multiple Solo-Task luminaires together in a daisy-chain method makes installation simple and straightforward. Each luminaire can be installed in the desired location, and then wire can be cut to exact lengths starting from the remote driver, and connected [in-going and out-going] from luminaire to luminaire.

Features

- LED array provides outstanding performance, color quality/consistency and reliability
- 3000K white phosphor array designed to operate using 12-volt AC input
- Quality die-cast aluminum
- Daisy-chain capable utilizing screw-type terminal blocks
- Designer white, black, brushed bronze or satin nickel finishes.
- Rated at 50,000 hours at 70% lumen maintenance
- Onboard luminaire LED driver operates at less than 5-watts input at 12-volts AC
- May be dimmed with dimmers tested and qualified by Juno for use with TL602E and TL576 – driver/transformer specifications for compatible dimmers
- Color temperature remains constant over dimming range
- Warranty period is 5-years from date of purchase
