AC Powered, Plug-In Carbon Monoxide Alarm

• Part Number 900-0056 • KN-COP-DP

Description
The Kidde 900-0056 is an AC powered, plug-in carbon monoxide alarm that can be installed easily in any standard wall outlet. The 900-0056 uses advanced technology to monitor for carbon monoxide levels in your home and features a Nighthawk™, electrochemical sensor, the world’s most accurate carbon monoxide sensing technology*. The digital display feature allows for easy viewing of carbon monoxide levels.

Consumer Benefits
The Kidde 900-0056 AC powered, plug-in carbon monoxide alarm provides you and your family a warning signal against the dangers of carbon monoxide levels in your home. This alarm is easily installed in any of your AC wall outlets. The digital display feature allows for easy viewing of carbon monoxide levels from 30-999PPM (parts per million). The 900-0056 is UL listed and offers a 5-year limited warranty.

Features and Benefits
• Digital Display – Displays the level of carbon monoxide the unit is sensing. The unit updates this reading every 15 seconds.
• Peak Level Button – Displays the peak CO level recorded by the alarm since it was last reset or unplugged.
• Test Button – Tests unit’s electronic circuitry and horn and resets the unit during alarm.

*Based on accuracy claims of major manufacturers
**Architectural and Engineering Specifications**

The carbon monoxide alarm shall be Kidde Unit Number KN-COP-DP (part number 900-0056) or approved equal. It shall be powered by a 120VAC, 60 Hz source. The temperature operating range shall be between 40°F and 100°F (4°C and 38°C) and the humidity operation range shall be 5% - 95% relative humidity.

The CO sensor shall be of a fuel cell design and shall meet the sensitivity requirements of Underwriters Laboratories UL 2034 Single Station Carbon Monoxide Detectors. The unit shall provide accuracy of +/-20% + 15 parts per million (ppm) when reading CO concentration levels.

The alarm shall include an attached plug that can be installed in any outlet following the UL/NFPA/Manufacturer’s recommended guidelines. The plug shall be capable of being rotated so the alarm remains vertical independent of whether the electrical socket is mounted vertically or horizontally.

The unit shall incorporate a digital display that meets the sensitivity requirements of UL 2034. The display will identify the levels of CO in parts per million (ppm) once that level reaches 30ppm (i.e.: “abnormal” levels). The display will have a red dot in the lower right corner that will blink to indicate the normal operation.

The alarm shall include a test button that will electronically simulate the presence of CO and cause the unit to go into alarm. This sequence tests the unit's electronics to ensure proper operation.

The CO sensor will not alarm to levels of CO below 30 ppm and will alarm in the following time range when exposed to the corresponding level of CO.

The alarm shall include a piezoelectric horn that is rated at 85 decibels at 10 feet. When the unit detects carbon monoxide, the alarm pattern will be four (4) short beeps – followed by five (5) seconds of silence – followed by four (4) short beeps. A number reading will appear on the digital display identifying the CO concentration (in ppm).

*Based on accuracy claims of major manufacturers

**Technical Specifications**

- **Part Number**: 900-0056
- **Unit Number**: KN-COP-DP
- **UPC Number**: 7-84608-00560-1
- **Power Source**: 120VAC
- **Sensor**: Electrochemical
- **Audio Alarm**: 85dB at 10ft
- **Temperature Range**: 40°F (4.4°C) to 100°F (37.8°C)
- **Humidity Range**: Up to 95% relative humidity (RH)
- **Size**: 5.65"L x 3.25"W x 1.9"H
- **Weight**: 1lb
- **Interconnects**: No
- **Wiring**: Plug-In
- **LED**: Displays CO concentration in PPM
- **Warranty**: 5 year limited
